INTRODUCTION

The *Illinois Register* is the official state document for publishing public notice of rulemaking activity by State governmental agencies. The table of contents is arranged categorically by rulemaking activity and alphabetically by agency within each category. Rulemaking activity consists of proposed or adopted new rules or amendments to or repealers of existing rules, including those by emergency or peremptory action.

The *Register* also contains Executive Orders and Proclamations issued by the Governor, notices of public information required by State statute, and activities (meeting agendas, Statements of Objection or Recommendation, etc.) of the Joint Committee on Administrative Rules (JCAR), a legislative oversight committee which monitors the rulemaking activities of State agencies. In addition, the *Register* contains a Cumulative Index listing alphabetically by agency the Parts (sets of rules) on which rulemaking activity has occurred in the current *Register* volume and a Sections Affected Index listing, by Title of the *Illinois Administrative Code*, each Section (including supplementary material) of a Part on which rulemaking activity has occurred in the current volume. Both indices are action coded and are designed to aid the public in monitoring rules.

The *Register* will serve as the update to the *Illinois Administrative Code*, a compilation of the rules of State agencies. The most recent edition of the *Code* along with the *Register* comprise the most current accounting of the State agencies' rules.

The *Illinois Register* is the property of the State of Illinois, granted by the authority of the Illinois Administrative Procedure Act (Ill. Rev. Stat. 1985, ch. 127, pars. 1001 et seq., as amended).

BACKGROUND

Ozone pollution is one of the nation's most serious and complex air pollution problems. Ozone is a photochemical oxidant and the major component of smog. Unlike other pollutants, ozone is not emitted directly into the atmosphere but is formed through chemical reactions among precursor emissions (volatile organic compounds or VOCs, nitrogen oxides, carbon monoxide and other compounds) in the presence of sunlight. The rate of ozone production is increased when atmospheric temperatures are warmer.

The hot summers of 1987 and 1988 resulted in high levels of ozone in the Chicago and Metro East non-attainment areas. Readings as high as 0.22 ppm by volume were recorded, which is some 83% above the federal and Illinois air quality standard of 0.12 ppm by volume. However, the ozone problem is not specific to Illinois. The United States Environmental Protection Agency (USEPA) estimates that there are more than 80 urban areas where the ozone air quality standard is being exceeded.

New and emerging scientific data is shedding more light on the effect high levels of ozone have on the

general public. Ozone severely affects individuals with chronic heart, lung, and circulatory system diseases. Otherwise healthy individuals who exercise while ozone levels are high can experience reduced functioning of the lungs, leading to chest pains, coughing, wheezing, and pulmonary congestion. In addition to the health effects, ozone has been estimated to cause two to three billion dollars worth of crop damage nationally each year. Also, because the Chicago area has exceeded the ozone standard repeatedly, USEPA has imposed a construction ban on the Chicago non-attainment area which prohibits the construction or modification of major air pollution sources and thus restricts the economic development of the Chicagoland area.

In its comments (P.C. 23), the Illinois Environmental Protection Agency (Agency) noted that in the early 1970's, the average summertime RVP of gasoline was approximately 9.0 psi. However, with the phasing out of leaded gasoline, refineries began adding butane to meet octane requirements which increased the RVP levels. The Agency noted that it was not aware that the typical summer RVP of gasoline in Illinois was well above 9.0 psi until late in 1987. As a result, Agency estimates of VOC emissions during the 1970's and 1980's from both stationary and mobile gasoline-related sources have been made using an RVP approximately 20-25% lower than actual RVP. Accordingly, those emissions have been underestimated by approximately 20-25%. Thus, during this period that the Agency had been actively engaged in imposing reasonably available control technologies (RACT) on major sources of air pollution, the increase in gasoline RVP was causing a significant increase in the emission of ozone precursors. Much of the benefit of the RACT regulations was lost as a result. Reducing the summertime volatility of gasoline to 1970 levels is expected to correct this situation.

To cure all of these ozone related problems, federal, state, and local governments have attempted to limit the emission of ozone precursors. One method of limiting such emissions is to reduce the volatility of gasoline. Volatility, generally speaking, is the rate at which a substance evaporates into the atmosphere -- the higher the volatility, the faster the evaporation. As will be discussed below, reducing the volatility of gasoline sold in Illinois, and ultimately the country, is believed to be a giant step forward in solving the ozone problem.

POLLUTION CONTROL BOARD

NOTICE OF PROPOSED AMENDMENTS

On August 19, 1987 the United States Environmental Protection Agency (USEPA) published a notice of proposed rulemaking (52 Fed. Reg. 31274) proposing to require gasoline refineries to reduce the volatility of their summertime commercial fuels and to require manufacturers of most gasoline fueled vehicles to make minor improvements in the design of their existing evaporative emission control systems. The purpose of USEPA's action was to control the emission of organic materials which are precursors to the formation of ozone. USEPA held a public hearing on October 27, 1987, on both the proposed volatility and refueling control programs and accepted public comment until February 11, 1988.

It has been estimated that reducing gasoline RVP to 9.0 psi in Illinois could result in summertime weekday emissions reductions of 103,000 kg/day or 41,000 tons/year. Such a reduction may reduce ozone levels by 10-15%. Although this alone may not solve the ozone problem, it would be significant step forward.

However, by December of 1988, well over one year from the date of USEPA's proposed rulemaking, the date for the final adoption of a national gasoline volatility limit remained uncertain. This uncertainty, coupled with a desire to avoid further ozone excursions, prompted the Board on January 5, 1989 to adopt an order requesting written public comment on various aspects of the gasoline volatility issue, i.e., the feasibility of reducing the RVP of gasoline to 9.0 pounds per square inch (psi) by the summer of 1989, the anticipated costs of reducing the gasoline volatility, the status of the USEPA's rulemaking to reduce gasoline volatility, etc. Written public comments were received through March 1, 1989. Twenty-one (21) written public comments were submitted into this docket by March 1, 1989, by various members of the public and of the regulated community. An additional five (5) public comments were received by March 8, 1989.

On March 9, 1989, the Board adopted an order stating its intent to proceed with a proposal for rulemaking. The Board noted that the written public comment would require careful review and that the pending USEPA action was uncertain; thus, further action would be forthcoming.

On March 22, 1989, USEPA published at 54 Fed. Reg. 11868 "Phase I of a two-phase reduction in summertime

POLLUTION CONTROL BOARD

NOTICE OF PROPOSED AMENDMENTS

commercial gasoline volatility". The federal regulation limits the volatility of gasoline in Illinois to 10.5 psi north of 40° Latitude and 9.5 psi south of 40° Latitude. The 40° Latitude line is an east-west line south of Beardstown, Champaign and Danville and north of Quincy, Springfield and Georgetown.

On April 4, 1989, the Chicago Lung Association (CLA) submitted a proposed rule, a statement of reasons, and a motion to waive the 200 signature requirement of Section 28 of the Environmental Protection Act (Act) and Section 102.121(a) of the Board's procedural rules, 35 Ill. Adm. Code 102.121(a).

PUBLIC HEARINGS

On July 17 and 21, 1989, the Board conducted public hearings to address the CLA proposal to limit the volatility of gasoline. Presenting testimony on July 17, 1989 were the Chicago Lung Association, United States Environmental Protection Agency, the Illinois Petroleum Council, Amoco Oil Company, Phillips 66, Marathon Oil Company, and the Motor Vehicle Manufacturers Association (MVMA). Presenting testimony on July 21, 1989, were Mobil Oil Corporation and the Chicago Lung Association.

At hearing, the Hearing Officer established a post-hearing comment schedule, ordering that comments be submitted on or before August 7, 1989. Six post-hearing comments were submitted in a timely fashion (P.C. 42-47). Mobil Oil Corporation filed its comments on August 15, 1989. On August 17, 1989, CLA filed an additional comment along with a motion to file instant. CLA's motion is hereby granted. Although Mobil's comment was not submitted under a motion to file, the Board will accept the comment into the record. Mobil's comment was submitted in time to permit adequate consideration; no participant will be prejudiced; and the record will be complete, which is the Board's ultimate goal.

ECONOMIC IMPACT

The Board's Order of June 22, 1989 in this docket addresses the issue of whether an economic impact study (ECIS) would be prepared. As noted in that Order, Section 27(a) of the Act requires that the Board make a determination within 60 days of the acceptance of a

POLLUTION CONTROL BOARD

NOTICE OF PROPOSED AMENDMENTS

proposal. Noting that the record at that time already contained a fair amount of economic information and noting further that hearings were scheduled at which additional economic information was expected to be submitted, the Board determined that an ECIS need not be prepared. The Board noted, however, that Section 27(a) permits the Board to determine after the 60 days that an ECIS need be done if new information indicates that one need be done. The Board here addresses the issue of economic impact and the need for an ECIS.

Section 27(a) of the Act sets forth the Criteria that the Board is to consider when determining whether an ECIS should be conducted. Section 27(a) states in relevant part:

The Board shall reach its decision based on its assessment of the potential economic impact of the rule, the potential for consideration of the economic impact absent such a study, the extent, if any, to which the Board is free under the statute authorizing the rule to modify the substance of the rule based upon the conclusions of such a study, and any other considerations the Board deems appropriate.

Many of the commenters, primarily the refineries and gasoline distributors, specifically requested that the Board determine that an ECIS be prepared. In comments and at hearing, the Illinois Petroleum Council (IPC) strongly advocated for the preparation of an ECIS, arguing that in declining to require an ECIS, the Board is overlooking several key considerations. First, IPC argues that Illinois is the hub of the midwest gasoline supply and distribution system, and asks what impact would limiting gasoline volatility to 9.0 psi in Illinois have on both Illinois and other states supplied by Illinois based refineries. Second, IPC asks how much improvement in Illinois' ambient air quality would volatility control produce, especially in light of the large summertime natural source volatile organic compound emissions in the state. Third, what is the real cost to Illinois consumers and is this cost reasonable and commensurate with the expected improvement in air quality? Fourth, would not a 1.0 psi waiver for ethanol blends negate the improvement in Illinois' air quality expected from a reduction in RVP

POLLUTION CONTROL BOARD

NOTICE OF PROPOSED AMENDMENTS

levels? And finally, IPC asks does the Clean Air Act allow the state to adopt more restrictive environmental controls absent their inclusion in an approved state implementation plan (SIP)?

Other commenters, primarily the proponent CLA and NESCAUM, argue that the economic information in the record is sufficient to support the proposed regulation, that an ECIS need not be prepared, and that the impact will be reasonable. In support of their argument, these commenters note that the Chicago area is non-attainment for ozone. As a result, Chicago is currently under a construction ban, which means that no new construction or modification of a major air emission source may take place. This alone restricts economic development of the Chicago area. CLA estimates that adoption of this rule will result in emission reductions of approximately 199.5 tons/day. CLA further estimates that this value is nine percent of the estimated 1988 VOC inventory of 2,186.9 tons/day and thirteen percent of the reductions estimated by USEPA to be necessary to bring the Chicago area into attainment, and thereby lift the construction ban. USEPA estimates that early implementation of this rule will reduce emissions by 261 tons/day. CLA also notes that the Agency has noted its belief that the emission reductions resulting from a gasoline volatility limit of 9.0 psi would be the largest single reduction option available in Illinois.

In further support of their position, these commenters argue that other benefits would result as well. They argue that adoption of this rule would go a long way toward avoiding the adverse health effects, noted above, associated with excessive ozone levels. In addition, crop damage resulting from high ozone levels would be minimized. CLA argues that Illinois crop yields will improve, as major crops for the Illinois farm economy are sensitive to ozone-induced yield loss even at the relatively low concentrations at which ozone is found in the farm areas of the state. For Illinois this was valued to be worth 226 million dollars for a ten percent reduction in ozone levels experienced in 1980. As the estimated ozone reduction resulting from implementation of this rule is two percent, this calculates to a potential benefit of approximately 45 million dollars. Also, CLA and USEPA point out that another benefit will be increased fuel economy due to the increased energy density of lower RVP fuel and as less fuel is lost through evaporation and running loss.

POLLUTION CONTROL BOARD

NOTICE OF PROPOSED AMENDMENTS

As a preliminary matter, the Board notes that the nature of this rulemaking is somewhat different from most other rulemakings. In this rulemaking, the Board is being asked to adopt early a rule which USEPA is in the process of promulgating. In its consideration of this rule, USEPA has considered and addressed the economic impact upon the regulated community. USEPA has already adopted the first phase of that rule. USEPA has stated on the record in this proceeding that it expects to publish the final phase of its rule early next year, with an effective date of 1992. The final rule is expected to limit the volatility of gasoline in Illinois, and other areas, to 9.0 psi RVP. Thus, a 9.0 psi RVP limitation appears inevitable, which means that the economic impact will result, whether the Board acts or not.

The question, then, in determining whether an EcIS need be conducted is not necessarily what is the economic impact of a gasoline volatility rule in Illinois; more precisely the question is what is the economic impact of early implementation of the federal gasoline volatility rule in Illinois?

The record indicates that reducing the volatility of gasoline from 11.5 to 9.0 psi, taking all of the above considerations into account, would result in a price increase of gasoline of approximately 1-3 cents per gallon. This estimate preceded adoption by USEPA of phase I of its rule. The record is not clear on what the approximate cost per gallon would be in Illinois now that the standard is 10.5 psi. In other words, the record does not articulate what the cost of reducing the volatility of gasoline from 10.5 to 9.0 psi will be per gallon. The Board can only assume that it will be less than or equal to 1-3 cents per gallon. Market forces as they are, the economic burden of this rule will still be carried by the consumer. In relation to the benefits derived from this rule, however, a 1-3 cent cost per gallon of gasoline is not unreasonable. And again, part of this cost increase will be offset by increased fuel economy resulting from the use of lower RVP gasoline.

Put another way, the total cost of implementation appears to be less than \$1000 per ton of VOC controlled. According to P.C. 42, the Office of Technology Assessment has estimated the cost to be in the range of \$320 - 700 per ton of VOC controlled. CLA notes that the Agency has

POLLUTION CONTROL BOARD

NOTICE OF PROPOSED AMENDMENTS

estimated the cost effectiveness (using the old emission inventory) for gas volatility reduction to 9.0 psi was \$982 - 1,129 per ton of VOC controlled. CLA's own estimates put the costs of control at approximately \$1,000 per ton. CLA notes that this cost estimate is well within the range of cost effectiveness values associated with the adoption of other Reasonably Available Control Technology (RACT) regulations. Mobile, however, estimates that the cost would be approximately \$2,000/ton.

The Board notes that these cost estimates include a consideration of most of the issues raised by the potentially regulated community. The Board turns next to one of the major issues that has proven more difficult to analyze. Many commenters have argued that a 9.0 psi RVP limitation in Illinois would set Illinois apart from the rest of the Midwest region, making Illinois, for all effective purposes, a "specialty" state in terms of refining and distributing gasoline. Generally, the Midwest region includes Illinois, Indiana, Wisconsin, Michigan, Iowa, Missouri, Minnesota, and Kentucky. Of these, Indiana, Wisconsin, Michigan, Iowa, Minnesota and Kentucky are subject to a 10.5 psi RVP standard. The southern portion of Illinois, Missouri, Oklahoma, Tennessee, and Arkansas are subject to a 9.5 psi standard. The commenters argue that limiting the volatility of gasoline in Illinois to 9.0 psi while many of the other states operate under a 10.5 psi standard would impose a burden upon the refiners and distributors in three fundamental respects.

First, the commenters argue that the distribution network is not equipped to accommodate a 9.0 psi RVP gasoline. Illinois refineries are presently producing gasolines of 10.5 to 9.5 psi for distribution in Illinois, Indiana, Wisconsin, etc. 10.5 psi gasoline is presently being distributed in Indiana, Wisconsin, and the northern part of Illinois, i.e., north of 40 degrees Latitude. 9.5 psi gasoline is presently being distributed in southern Illinois and Missouri. Most of the gasoline supplied in the Midwest is provided primarily by refiners in and around Illinois. In addition, the commenters argue that supplements to this supply are provided by shipments from the Gulf Coast and from Canada. While the commenters note that Gulf Coast supplies have become tight due primarily to pipeline capacity constraints and that imports from Canada have been rather sporadic, they argue that it would be difficult to supplement the Midwest region's supply of

POLLUTION CONTROL BOARD

POLLUTION CONTROL BOARD

NOTICE OF PROPOSED AMENDMENTS

NOTICE OF PROPOSED AMENDMENTS

gasoline from these sources because it would be difficult for the pipeline operators to supply only Illinois with 9.0 psi gasoline while the remainder of the upper midwest region receives 10.5 psi gasoline.

Second, the commenters argue that if they are required to produce and market a 9.0 psi gasoline, or a "specialty" gasoline product, they will be placed in a position of economic disadvantage with their out-of-state competitors who are not required to produce 9.0 psi gasoline. These commenters argue that because their competitors will not be required to incur the expense of producing 9.0 psi product, these competitors will be able to sell their product at a lower price.

Third, the commenters argue that limiting Illinois to a 9.0 psi standard would impose a burden on gasoline suppliers in times of spot shortage. For example, one of the hearing participants (Mobil) offered the following testimony on this point:

Right now if we have a spot shortage in Chicago or Illinois, or somewhere in the State of Illinois, some city has a spot shortage, we can bring product in from Minnesota, we can bring it from Indiana, we can bring it in from Wisconsin. We cover it like that. And it is no problem.

But if you have a nine pound standard in Chicago, and there is a ten and a half pound standard in Indiana, we can't do that. Now, where do we go for the product to cover that temporary disruption? We don't know. (R. 272.)

Thus, the record indicates that in times of spot shortages, Illinois, if under a 9.0 psi standard, would be unable to conveniently make up the shortage using supplies from other states.

It is based upon these issues and concerns that the Board has determined that the appropriate course is to split this docket into two separate proposals, Docket (A) and Docket (B). In Docket (A), the Board proposes a 9.5 psi RVP limitation statewide, and determines that an Ecis need not be conducted. Because the southern portion of Illinois, i.e., south of 40 degrees latitude, is currently

operating under a 9.5 psi standard, the Board believes that much of the concern noted above will be avoided. In other words, Illinois refiners are currently producing 9.5 psi gasoline for distribution in Illinois, and Missouri. Illinois will not be a "specialty" state; Illinois refiners will not be placed in a position of economic disadvantage. Since refiners are producing 9.5 gasoline for southern Illinois, there should be little difficulty in producing it for northern Illinois as well. Further, in times of spot shortage in northern Illinois, the marketers can turn to supplies in southern Illinois and adjoining states to make up the difference. According to USEPA's post hearing comments, adoption of a 9.5 psi limit could result in almost 80% of the potential benefits to be derived from a 9.0 psi standard (P.C. 44).

In Docket (B), however, the Board proposes the 9.0 psi RVP limitation statewide and determines that an Ecis need only be conducted on the issues discussed above, namely whether a 9.0 standard in Illinois would be economically or technically unreasonable or pose an economic hardship in terms of supplying gasoline to Illinois and the other midwestern states; whether a 9.0 standard in Illinois would impose economic hardship in events of spot shortages and an economic analysis of granting the 1.0 psi exemption for ethanol blenders. As will be discussed below, the Board also requests that the Ecis review the impact if the proposed subsection (i) requirement that retail outlets and other facilities maintain records regarding each delivery of gasoline. The Board specifically requests that the Department of Energy and Natural Resources (DENR) prepare and submit this Ecis to the Board on or before June 30, 1989. The Board makes this request so that it will have time to adopt the rule if found to be feasible in time for 1991 implementation.

TECHNICAL FEASIBILITY

As previously described, "volatility" of a liquid is a measure of its tendency to evaporate. Gasoline is a mixture of a number of hydrocarbon components which are very volatile under most conditions. Certain hydrocarbons, known as "light-end" hydrocarbons, are among the most volatile components of gasoline. Butane is a light-end hydrocarbon. Light-end hydrocarbons make up the largest part of gasoline vapor. Evaporated gasoline, however, will also include certain amounts of heavier hydrocarbons.

POLLUTION CONTROL BOARD

NOTICE OF PROPOSED AMENDMENTS

Benzene, one of the heavier compounds, is a known carcinogen in addition to contributing to ozone.

Reformulation

As a practical matter, implementation of this rule will be effectuated by the reformulation, or alteration of the chemical composition, of the gasoline distributed in Illinois. The primary approach that gasoline refiners would take to reduce the volatility of gasoline products would be to add less butane during the refining process. Apparently, in the early 1970's, gasoline volatility had an average RVP of approximately 9.0 psi. With the phasing out of lead in gasoline, refiners began to add butane to gasoline to meet octane requirements. Butane was chosen because it is relatively inexpensive and because it increases octane. However, it also substantially increases volatility. P.C. 42, p.1. Thus, reducing the amount of butane will have the result of decreasing the volatility of the gasoline.

Based on a review of the record, the Board determines that reducing the level of butane in gasoline products would be technically feasible. In most cases, refiners simply need not add butane to the gasoline product. Evidence for this determination is found in the fact that refiners in Illinois already produce gasoline with a volatility of 9.5 psi RVP.

However, many participants, primarily the refiners, note that by not adding the butane to gasoline, the refiners will incur costs for butane removal, butane storage, loss of butane value, octane value replacement, and/or compliance testing. One commenter, P.C. 6, further notes that butane is contained in crude oil as well as being produced in processing units. Processing units like the catalytic reformer and fluid catalytic cracker increase butane production when operating to produce higher octane gasolines. These commenters argue that the surplus butane would have no economic value in the refinery. Thus, new markets for the butane must be developed. Once these markets are developed, the refiner must make refining modifications as well as construct storage and transportation facilities. These commenters believe that the costs associated with such facilities would be excessive.

POLLUTION CONTROL BOARD

NOTICE OF PROPOSED AMENDMENTS

The Board is not persuaded by the record that it would be technically infeasible for refiners to remove, store, and/or reuse the butane at a later date. The Board can see no reason why the refiners cannot remove the butane during the regulatory control period, i.e., July and August, and then reuse it during the colder winter months when ozone formation is not a problem. The commenter's argument that storage facilities must be constructed is not, in and of itself, dispositive of this issue. The Board is aware of the existence of potential storage facilities that are apparently being unused. The Board specifically requests comment on the potential availability of these and other facilities for the purpose of butane storage.

Further, the Board notes that the commenters' arguments are directed more to the merits of the gasoline volatility rule in general than to the early implementation of the rule. When the federal rule is adopted, the refiners will be required to remove the butane and do something with it. The Board's consideration of early implementation of the rule merely requires the refiners to begin the search for storage facilities or new markets sooner than the federal rule would.

Safety/Driveability

Many of the commenters argue that the Board should not proceed with this rulemaking because 9.0 psi RVP gasoline would likely give noticeably degraded driveability performance in the early spring and late fall when product would be in the distribution system to ensure compliance with the restriction period. One of the commenters, P.C. 48, submitted a study prepared August 1, 1988 for submission to the American Petroleum Institute. Results of the study are as follows:

- (a) 30% of the vehicles tested showed significant deterioration in driveability performance (at least two or more have hesitation and/or stalls) with 9.0 psi RVP fuel compared to the typical 13.5 psi RVP fuel.
- (b) There were nearly twice as many start stalls with the 9.0 psi RVP fuel compared to the 13.5 psi RVP fuel within the 51 vehicle fleet tested.

POLLUTION CONTROL BOARD

NOTICE OF PROPOSED AMENDMENTS

- (c) Average driveability performance with the tank fuel (average RVP = 13.0 psi) was similar to performance with the nominal 13.5 psi RVP test fuel.
- (d) Test temperatures for this program ranged from 21-30 degrees F; however, it is expected that lower temperatures than those observed during this test could occur in some ASTM Class C areas during March and November.

Many other participants submitted similar comments.

The CLA argues that vehicle performance will not deteriorate as a result of the reduced volatility, but rather vehicle performance and safety may improve. CLA points to the state of California as an example where fuel volatility has been reduced since 1971 without commensurate driveability problems. CLA further points to the comments of NESCAUM and the Motor Vehicle Manufacturers Association (MVMA) for support of its position.

At hearing, the Board received testimony from a representative of MVMA who stated:

Because every vehicle on the road today was designed and built to operate on nine pound volatility gasoline, MVMA does not believe that vehicle performance would suffer from volatility control. In fact we believe that performance would be increased in the hot summer months due to reduction in vapor lock and stalling on those hot days when ozone is a problem. However, the concern remains regarding vehicle performance in very cold weather. This should be addressed by adjusting the effective date of the control period. It is not a reason to abandon volatility controls. (R.214-215)

Based on the record, the Board is not persuaded that implementation of this rule will result in safety or driveability problems. The study submitted in P.C. 48 was conducted under temperatures of 21 - 30 degrees F. The Docket (A) proposal requires 9.5 psi gasoline at the retail outlet during July and August. The Board does not believe it likely that northern Illinois will be subject to temperatures as cold as that during those months. The Docket (B) proposal would require 9.0 psi gasoline at the

POLLUTION CONTROL BOARD

NOTICE OF PROPOSED AMENDMENTS

retail outlet from June 1 to September 15. The Board does not believe it likely that northern Illinois will be subject to temperatures below 30 degrees during this period also. As a result, the Board is not persuaded that gasoline with a volatility of 9.5 psi, or 9.0 psi for that matter, will pose a safety/driveability problem in Illinois during the regulatory control period here proposed. In colder climates, lower volatility gasoline may pose problems, but the Board believes that those problems should not be present during the implementation of either of these proposals.

ENFORCEABILITY

At hearing, the IPC raised a valid question regarding whether the Clean Air Act allows the state to adopt more restrictive environmental controls absent their inclusion in an approved state implementation plan(SIP). After noting the recent case of American Petroleum Institute v. New York State Department of Environmental Conservation, 29 ERC 1457 (D.N.Y. April 4, 1989), IPC asks:

Since Illinois currently does not have an approved SIP and is bound from developing one until after the FIP has been promulgated or settled, which should be sometime in 1990, how can the Pollution Control Board possibly act on the Chicago Lung Association's proposal? (R. 81.)

The Board does not believe it is precluded from promulgating this regulation based on the decision in the API case. In fact, the Board believes it has every right and power granted under the Environmental Protection Act (Act), Ill. Rev. Stat. 1987, ch. 111-1/2, pars. 1001 et seq., to proceed with this proposal. The Board is aware, however, that under the API decision a final adopted rule will not be enforceable until it is approved as a revision to the SIP. As USEPA has appeared in this rulemaking proceeding and has articulated its support for the rule, the Board believes that USEPA will work expeditiously to approve the rule as a revision to the SIP. Thus, the Board does not agree with IPC that the State must have an "approved SIP" before it can proceed with this rule; rather, the State must submit the adopted rule to USEPA as a revision to the SIP, and once approved as such, the rule can be enforced.

POLLUTION CONTROL BOARD

NOTICE OF PROPOSED AMENDMENTS

ETHANOL EXEMPTION

Many commenters specifically stated that if the Board proceeds with the proposal to limit the volatility of gasoline, then the Board should not include the 1.0 psi exemption for ethanol blended gasoline, as CLA proposed. These commenters argue that including a 1.0 psi exemption for blended gasolines directly contradicts the intent of limiting the volatility of gasoline, i.e., to reduce the formation of ozone.

CLA states in its submissions to the Board that it has included the 1.0 psi exemption for the following reasons. First, the USEPA rule allows a one pound exemption for gasohol (ethanol blends). To be as parallel as possible with the federal rule and to avoid confusing the regulated community, CLA retained the gasohol exemption. Second, gasohol is typically made by "splash blending" in which a certain amount of ethanol is put into a tank and to it is added a certain amount of finished gasoline, or vice versa. For example, in an area where 10.5 psi gasoline is sold, the ethanol blends will use that as a base and end up with a gasohol with a volatility about one psi higher than the base gasoline, or 12.5 psi. CLA argues that if gasohol is required to meet the same volatility limit as gasoline, i.e., 9.0 psi, gasohol blenders would require a special blending grade gasoline of 8.0 psi, which is not available. Finally, CLA states that both gasoline and gasohol will have their volatility reduced by 1.5 psi under the proposed rule. Thus, a significant reduction in the emissions from both fuels will result. Additional emission reductions could be made by further reducing the volatility of both gasoline and gasohol and that option may be appropriate for the Board to consider in the future along with other VOC reduction measures.

The Board has retained the ethanol exemption in both Dockets (A) and (B); however, certain revisions have been made. The Board has retained the 1.0 psi exemption to insure that this rulemaking is as parallel to the federal rule as possible. Again, the Board notes that the proper focus for this rulemaking is early implementation of the forthcoming federal rule. Consistent with this intent, the Board believes that it would not be feasible to require ethanol blends to meet the same standard when the gasoline that it is blended with is already at that level. The

POLLUTION CONTROL BOARD

NOTICE OF PROPOSED AMENDMENTS

record indicates that when ethanol is blended with gasoline, the ethanol raises the RVP approximately 0.7 psi. For this reason the Board has added the additional language to proposed Section 215.585(c), below. This language states that if after blending the RVP is raised 0.7 psi, nothing else shall be added so as to use up the remaining 0.3 psi exemption. The intent of this language is to insure that only ethanol is added to the gasoline, resulting in the increased RVP.

DOCKET B PROPOSAL

On September 29, 1989, the Board published the Docket A proposal to limit the volatility of gasoline to 9.5 psi. Today the Board proceeds to publish Docket B, which proposes to limit the volatility of gasoline to 9.0 psi statewide beginning in 1991. The reason for the delay in the 9.0 psi standard is the request for the Economic Impact Study.

In the Notice portion of the September 29, 1989 Illinois Register publication, the Board discussed the differences between the CLA proposal and the Board Docket A proposal. In addition to those changes, the Board makes additional changes in Docket B. The regulatory control period beginning 1992 and each year thereafter has also been extended to June 1 to September 15. This is to parallel the federal rule as much as possible. Also, the Board has added subsection (i) which will require retail outlets and other similar facilities to maintain records regarding each delivery of gasoline so as to aid in the enforcement of the rule. The Board requests that the ECIS review the impact of this proposed language as well.

b) 1) A one-month eligibility period will be used. All nonexempt income and non-exempt assets over the applicable asset disregard (Section 120.382) shall be applied towards the cost of care on a monthly basis. Non-exempt income (see Section 120.360) and assets (see 120.381) are applied towards the cost of care beginning with the first full calendar month of anticipated stay in the facility. Non-exempt income shall be applied toward the cost of care first. If insufficient to meet the cost of care at the private pay rate, then non-exempt assets over the applicable asset disregard shall be used.

2) When a client transfers between non-DMHDD facilities or transfers to a DMHDD facility, non-exempt income and/or excess assets are applied first toward the cost of care at the first facility and any balance is applied toward the cost of care at the second facility. Section 120.284 Spend-down of Assets (AMI)

DEPARTMENT OF PUBLIC AID

DEPARTMENT OF PUBLIC AID

NOTICE OF PROPOSED AMENDMENTS

NOTICE OF PROPOSED AMENDMENTS

Section 120.284 Spend-down of Assets (AMI) (Cont'd.)

Section 120.284 Spend-down of Assets (AMI) (Cont'd.)

1) For individuals residing in the community, the Department determines the amount of non-exempt assets using the verified amount on the date of decision on the application for medical assistance. The date of verification may be prior to the date of decision. Money considered as income for an enrollment period is not considered as an asset for that same enrollment period. If income for a month is added to a bank account that month, the Department will subtract the amount of income from the bank balance to determine the asset level. Any income remaining the following month(s) is considered as an asset.

2) The amount of non-exempt assets verified during the application process is used on the date of decision. If medical eligibility includes a backdated month, for the backdated month(s), the Department will consider the amount of assets available to apply to the cost of medical care. The Department will not determine the value of assets for a backdated month(s) of eligibility. However, the amount of the excess assets verified during the application process is used to determine spend-down status in the backdated month of eligibility.

3) Once the excess asset has been used to meet spend-down, whether or not the excess amount has actually been reduced, it is no longer considered. However, at reapplication, the Department will consider any excess non-exempt assets remaining as currently available.

b) Community Cases

To determine the spend-down obligation for AMI clients, the Department will compare the amount of countable income anticipated to be received during the six month enrollment period to the appropriate AMI Standard and add any non-exempt assets in excess of the appropriate asset disregard to countable income in excess of the appropriate AMI Standard.

1) Regular AMI

When an individual residing in the community, has countable income during the six-month period of not more than 99 cents over the appropriate AMI Standard and has non-exempt excess assets of not more than 99 cents over the appropriate asset disregard, the case is referred to as a Regular AMI case. Payment for covered services is made for each month of the authorization period.

2) Spend-down AMI

A) When the individual resides in the community and has countable income during the six-month period of at least \$1.00 over the AMI Standard and/or non-exempt assets of at least \$1.00 in excess of the asset disregard for the appropriate size household, the case is referred to as a community spend-down case. The spend-down amount is the sum of the amount of income in excess of the appropriate AMI Standard and any non-exempt assets in excess of the appropriate asset disregard. The Department will disregard excess countable income and/or asset amounts that are not at least \$1.00 over the appropriate standard or disregard.

B) The transfer of asset policy set forth in Section 120.285 still applies. Once the client has been determined to have a resource spend-down because of excess non-exempt assets, the spend-down cannot be eliminated by a non-allowable transfer made to qualify for or increase the need for medical assistance.

C) If the individual presents verification that the excess amount is no longer available and the transfer of assets is allowable according to policy set forth in Section 120.285, the Department will make the appropriate changes the month following the month the assets were transferred. If the resource spend-down has been met, the policy set forth in Section 120.285 regarding transfer of assets does not apply. The

client may dispose of the asset as he/she wishes as it has been applied to a met spend-down.

- D) Individuals enrolled in spend-down are not eligible for payment of covered medical services until spend-down is met. Spend-down is met by presenting allowable medical bills or receipts to the Department that equal the amount of the individual's excess countable income and/or non-exempt excess assets. Individuals are not required to reduce excess assets prior to the issuance of a medical card.

Section 120.384

Spend-down of Assets (MANG)

a) Determination of Assets

- 1) For individuals residing in the community the Department determines the amount of non-exempt assets using the verified amount on the date of decision on the application for medical assistance. The date of verification may be prior to the date of decision. Money considered as income for a month is not considered as an asset for that same month. If income for a month is added to a bank account that month, the Department will subtract the amount of income from the bank balance to determine the asset level. Any income remaining the following month(s) is considered as an asset.

- 2) The amount of non-exempt assets verified during the application process is used on the date of decision. If medical eligibility includes a backdated month(s), for the backdated month(s), the Department will consider the amount of assets available to apply to the cost of medical care. The Department will not determine the value of assets for a backdated month(s) of eligibility. However, the amount of the excess assets verified during the application process is used to

Spend-down of Assets (MANG) (Cont'd.)

determine spend-down status in each backdated month of eligibility.

- 3) Once the excess asset has been used to meet spend-down, whether or not the excess amount has actually been reduced, it is no longer considered. However, at reapplication/redetermination, the Department will consider any excess non-exempt assets remaining as currently available.

b) Community Cases (MANG)

To determine the spend-down obligation for MANG clients in the community, the Department will compare monthly countable income to the appropriate MANG standard and add any non-exempt assets in excess of the appropriate asset disregard to non-exempt monthly income in excess of the appropriate MANG Standard.

1) Regular MANG - Community Residents

When an individual residing in the community, has countable monthly income of not more than 99 cents over the appropriate MANG Standard and has non-exempt excess assets of not more than 99 cents over the appropriate asset disregard, the case is referred to as a Regular MANG case. Payment for covered services is made for each month eligibility exists.

2) Spend-down MANG

- A) When an individual resides in the community and has countable monthly income of at least \$1.00 over the MANG Standard and/or non-exempt assets of at least \$1.00 in excess of the asset disregard for the appropriate size household, the case is referred to as a community spend-down case. The spend-down amount is the sum of the amount of income in excess of the MANG Standard plus non-exempt assets in excess of the appropriate asset disregard. The Department will disregard any excess income and/or asset amounts that

DEPARTMENT OF PUBLIC AID

NOTICE OF PROPOSED AMENDMENTS

Section 120.384 Spend-down of Assets (MANG) (Cont'd.)

are not at least \$1.00 over the appropriate standard or disregard.

- B) The transfer of asset policy set forth in Section 120.385 still applies. Once the client has been determined to have a resource spend-down because of excess non-exempt assets, the spend-down cannot be eliminated by a non-allowable transfer made to qualify for or increase the need for medical assistance.

- C) If the individual presents verification that the excess amount is no longer available and the transfer of assets is allowable according to Section 120.385, the Department will make the appropriate changes the month following the month the assets were transferred. If spend-down has been met, the policy set forth in Section 120.385 regarding transfer of assets does not apply. The client may dispose of the asset as he/she wishes as it has been applied to a met spend-down.

- D) Individuals enrolled in spend-down are not eligible for payment of covered medical services until spend-down is met. Spend-down is met by presenting allowable medical bills or receipts to the Department that equal the amount of the individual's excess countable income and/or non-exempt excess assets. Excess assets do not have to be reduced prior to the issuance of a medical card.

c) Group Care Cases

To determine the spend-down obligation for MANG clients in group care, the Department will compare monthly countable income and non-exempt assets in excess of the appropriate asset disregard to the cost of long term care at the private pay rate. When an individual has non-exempt excess assets, the excess amount is applied to the monthly long term care charges after the monthly countable income has been applied.

DEPARTMENT OF PUBLIC AID

NOTICE OF PROPOSED AMENDMENTS

Section 120.384 Spend-down of Assets (MANG) (Cont'd.)1) Regular Group Care

When an individual in group care has countable monthly income plus non-exempt assets in excess of the applicable asset disregard of not more than 99 cents over the private pay rate, the case is referred to as a Regular Group Care case. If monthly countable income plus excess non-exempt assets are less than the long term care charges at the Department rate, the Department will pay the difference.

2) Group Care Spend-down

- A) When an individual in group care has countable monthly income plus non-exempt assets in excess of the applicable asset disregard of at least \$1.00 over the cost of long term care at the private pay rate, the case is referred to as a Group Care Spend-down case. The spend-down amount is the sum of the monthly countable income plus non-exempt assets over the applicable asset disregard.

- B) The transfer of asset policy set forth in Section 120.385 still applies. Once the client has been determined to have a resource spend-down because of excess non-exempt assets, the spend-down cannot be eliminated by a non-allowable transfer made to qualify for or increase the need for medical assistance.

- C) If the individual presents verification that the excess amount is no longer available and the transfer of assets is allowable according to Section 120.385, the Department will make the appropriate changes the month following the month the assets were transferred. If spend-down has been met, the policy set forth in Section 120.385 regarding transfer of assets does not apply. The length of time for any delay or continuance caused or requested by DORS or made by mutual agreement, will be added to the 100 day period during which services will continue. Any delays or continuances caused or requested by a grievant will not extend this period.

f) A service which is the subject of an appeal will not continue if the change is:

The grievant must be informed in writing by the Hearing Officer, within 5 days of receiving the request, of the date, time, location of the hearing, name and address of the Hearing Officer (for requests for extensions), and of all rights accorded under this part. If the grievant has notified DORS of his/her inability to attend a hearing at the local DORS office, it will be held in the grievant's home.

e) Within 10 days after adjournment of the Level I hearing the grievant must be informed of the decision in writing. The decision must contain:

- 1) a statement of the basis upon which the decision was made;
- 2) the applicable laws and policies used;

DEPARTMENT OF REHABILITATION SERVICES

NOTICE OF EMERGENCY AMENDMENTS

Section 650.80
EMERGENCYGrievance Procedures for Licensed Blind
Vendors (Repealed)

- a) When a licensed blind vendor is dissatisfied with any action arising from the operation or administration of the Vending Facility Program, a request for an administrative review of the grievance may be made. The vendor shall give notice in writing by certified mail to the Coordinator of the Vending Facility Program. The notice shall state the particular rule or regulation the vendor believes to have been violated, or set forth the facts the vendor believes constitute some form of harassment or unreasonable interference with business.
- b) The Coordinator shall respond immediately to the notice of grievance, and shall do so in writing by certified mail. The Coordinator shall state the Department's position and shall cite any rules or regulations which justify the practice complained of. The Coordinator and blind vendor shall meet and attempt to resolve the grievance to their mutual satisfaction if at all possible.
- c) If no satisfactory resolution can be agreed upon, the blind vendor may request a formal evidentiary hearing. The request shall be in writing and by certified mail to the Director of the Department or the Director's designee at the correct address of the Central Office, Springfield, Illinois. The Department shall schedule such hearing at the earliest possible moment, at a time and place convenient to both parties. If no location or time can be agreed upon, the vendor shall make the final decision provided his or her objections to other times and locations have been reasonable, but not to exceed ten (10) days from the date of receipt of letter.
- d) The evidentiary hearing shall be conducted, and the rights of all parties shall be as set forth under Section 650.70 (b) (4), (5), (6), (7), and (8). However, the burden shall be upon the vendor to prove the grievance, rather than upon the Department to prove violation.

DEPARTMENT OF REHABILITATION SERVICES

NOTICE OF EMERGENCY AMENDMENTS

e) The Decision

The evidentiary hearing officer shall make recommendations to the Director of the Department within fifteen (15) days subsequent to the hearing. The recommendations shall be based upon the record of the hearing and cite those portions of the record pertinent to the reasoning of the recommendations. The hearing officer shall recommend that the relief sought by the vendor be granted, or that the vendor's complaint is totally without foundation and that the relief sought be denied. The hearing officer may further recommend any intermediate solution so long as it can be justified by the record adduced at the hearing. Copies of the record and recommendations shall be sent by certified mail to the blind vendor and his or her personal representative, to the nominee agency and to the Department officials involved. The Director of the Department shall within fifteen (15) days of the receipt of the record and recommendations make a final order in the case, and shall agree with the hearing officer, or order some other solution. The Director shall make the order in writing and shall send it to all parties by certified mail.

- f) In the event the vendor is still dissatisfied with the Department, he or she may file an appeal with the Secretary of the Department of Education (DE), and have the case reviewed by an arbitration panel of the DE. The Randolph-Sheppard Act, as amended, shall apply to such hearings, as outlined in Section 650.70 (b) (8).

g) Costs

The Department as state administering agency under the Randolph-Sheppard Act, as amended, shall assume all administrative costs of the disciplinary proceedings of Section 650.70 and the grievance proceedings of Section 650.80 but shall not reimburse the blind vendor for expenses personally incurred because of those grievance proceedings.

- 6) Summary of Action Taken by the Agency:

Objection 1: The Joint Committee objected to the Section 1310.85(d) because the Department lacks the statutory authority to impose by rule a fee on a license renewal applicant's request for Department approval of continuing education hours that are earned by the applicant in another jurisdiction, when the applicant is not a licensed nursing home administrator in that jurisdiction and the continuing education sponsor has not been approved by the Department. This fee was included in this rulemaking so there would be a mechanism for renewal applicants who have taken courses in the above situation to apply for and receive credit for these courses and not impose a financial burden by not allowing credit for courses completed toward fulfillment of their continuing education requirement. This is a necessary fee based on the administrative hours expended by the Department to review and process such a request. The Department recognizes that the statute has specific fee language; however, this fee is necessary to carry out the provisions of the Act and to not create a hardship for the licensee. The Department refuses to modify the rule, however, will seek legislation to add this fee to the statute so that the intent is clear.

Objection 2: The Joint Committee on Administrative Rules has objected to Section 1310.20, 1310.30, and 1310.60 because the Department's rules are

6) Summary of Action Taken by the Agency:

Objection 1

The Joint Committee has objected to the rulemaking of the Department of Rehabilitation Services (DORS) entitled "Appeals and Hearings" (89 Ill. Adm. Code 510), because the rules do not accurately and completely reflect DORS' policies for the conduct of hearings concerning blind vendors. Consequently DORS has agreed to modify 89 Ill. Adm. Code 510 to meet the objection of the Joint Committee, thereby promulgating DORS' policies for the conduct of hearings concerning blind vendors accurately and completely. The modifications which have been in this rulemaking are specified below:

Section 510.10(b)(3) has been modified to include "(Receipt is presumed 4 days from the date of postmark or on the day of delivery for hand delivered items)" to clarify the time periods related to communications.

Section 510.20(i) has been added to specify that dissatisfaction of a client of the Community Services for Visually Handicapped program may be appealed.

ambiguous in light of the changes in the law resulting from Public Act 86-130. Public Act 86-130 amended Section 10 of the Nursing Home Administrators Licensing Act by providing that "nothing in this Act or in the rules adopted hereunder shall require an administrator of any facility or institution operated solely by and for persons who rely exclusively upon treatment by spiritual means through prayer alone, in accordance with the creed or tenets of any well-recognized church or religious denomination, to be licensed as a nursing home administrator." Nothing in these rules requires a nursing home administrator in one of these facilities to be licensed. Section 3 of the Act states "... an applicant for a license as a nursing home administrator or a temporary license to demonstrate proficiency in any medical techniques or to meet any medical educational qualifications or medical standards not in accord with the remedial care and treatment provided in such institutions, if such applicant is certified by a recognized church or religious denomination, which teaches reliance on spiritual means alone for healing, as having been approved to administer institutions certified by such church or denomination for the care and treatment of the sick in accordance with its teachings;". Based on the fact that this provision is still in the Act it is conceivable that if a person chooses to obtain a license, the Department by statute would be required to allow this person to apply and comply with the provisions in Section 3 of the Act. Section 1310.20, 1310.30 and 1310.60 set forth application provisions for these individuals seeking licensure. Therefore, the Department refuses to modify these Sections of the rules.

DEPARTMENT OF REHABILITATION SERVICES

NOTICE OF MODIFICATION OF RULEMAKING TO MEET
THE OBJECTION OF THE JOINT COMMITTEE ON ADMINISTRATIVE RULES

Section 510.30(a)(12) was modified to delete "directly" from the statement that an action taken by DORS which does not affect the grievant may not be appealed.

DORS has modified Section 510.40(b) to include "or a licensed blind vendor", to allow blind vendors the right to decide whether to begin their appeal with a Level I or Level II hearing.

DORS had modified Section 510.40(e) by deleting "or DORS and agreed to by the other party", in order to accurately express the Department's policies concerning confidentiality.

Section 510.40(g)(8) and (9) were modified to correct a reference.

Section 510.60(a) has been added to clarify that this section applies only to VR and HSP clients.

DORS modified Section 510.70(b)(1) to add the language "and declines to attend the hearing after DORS has made a reasonable attempt to secure his/her attendance," for persons no longer employed by DORS.

DORS has modified Section 510.70(b)(5) to add, "if the grievant has chosen to have a Level I hearing and then requests a Level II hearing", in order to reflect the fact that in some instances, no Level I hearing will be held.

Section 510.70(c) has been modified to add the language, "any person as a" to clarify who may be called as a witness by the grievant and DORS.

Section 510.70(f) has been modified to correct a reference to 510.40(c), and to replace "court reporter" with "record, pursuant to Section 510.90(d)". "Transcription" has also been deleted.

Section 510.70(j)(2) was modified to delete "a response to" from reference to a party's motion or objection concerning the admissibility of evidence.

Section 510.80(b) has been modified to clarify that, "The request must be received within 15 days of any written notice", and that the request for a Level I hearing must be made within 5 days of receipt by the grievant of the notice of selection.

DEPARTMENT OF REHABILITATION SERVICES

NOTICE OF MODIFICATION OF RULEMAKING TO MEET
THE OBJECTION OF THE JOINT COMMITTEE ON ADMINISTRATIVE RULES

Section 510.80(e)(4) has been modified to change from 10 days to 15 days the number of days from the date of the Level I hearing decision notice. The language, "postmark on" has been replaced with "of receipt".

DORS has modified Section 510.90(a) to include the procedure required for a Level II request when a Level I hearing has not been held.

Section 510.90(f) has been modified to add, "with the exception of appeals by licensed blind vendors" in order to reflect DORS' policy for the blind vendors' Level II hearings, which has been added as Section 510.90(g).

Section 510.100(a) has been modified to state, "The Director may choose to review any Level II decision except for an appeal brought by a licensed blind vendor by issuing a Notice of Intent to Review within 10 days. The scope of such review shall include, but is not limited to, the consistency of the Hearing Officer's finding with applicable law and regulations."

Section 510.100(c) has been modified to delete "transcript" and "per subsection (c)", which was an incorrect cite.

Objection 2

The Joint Committee objects to this rulemaking of DORS, because by proposing Part 510, "Appeals and Hearings" before repealing Section 650.80, "Grievance Procedures for Licensed Blind Vendors" the department has created confusion concerning which procedures blind vendors must use to appeal a Department action.

DORS has initiated the repeal of Section 650.80 (13 Ill. Reg. 12758, August 4, 1989) through the regular rulemaking process, and intends to file an emergency repealer at the same time as Part 510 is filed for adoption, in order to ensure that the grievance procedures in Part 510 only are to be used in appealing a Department action.

DORS has modified this rulemaking to meet the above objections of the Joint Committee and submits a revised copy of 89 Ill. Adm. Code 510: Appeals and Hearings for approval.

STATEMENT OF OBJECTION

STATE UNIVERSITIES CIVIL SERVICE SYSTEM

Heading of Part: State Universities Civil Service System

Code Citation: 80 Ill. Adm. Code 250

Section Numbers: 250.70

Date Originally Published in Illinois Register: February 17, 1989
13 Ill. Reg. 1921

At its meeting on September 21, 1989, the Joint Committee on Administrative Rules objected to the above proposed rulemaking. Failure of the agency to respond within 90 days of receipt of the Statement of Objection shall constitute withdrawal of the proposed rulemaking in its entirety.

The specific objections are as follows:

Objection 1

The Joint Committee objects to Section 250.70(g)(6) of the rulemaking of the State Universities Civil Service System entitled "State Universities Civil Service System," 80 Ill. Adm. Code 250, because contrary to the requirements of Section 4.02 of the Illinois Administrative Procedure Act, the rule fails to set forth the standards which the Director will use to approve continuation requests for extra help positions after the position has accrued the maximum of 900 consecutive hours.

The State Universities Civil Service System proposed this rulemaking to amend its rules concerning Extra Help Appointments. The procedures which the System is proposing in Section 250.70(g)(6) allow the Director to approve continuation of the Extra Help position after the position has accrued 900 consecutive hours. Specifically Section 250.70(g)(6) states:

An Extra Help position may be utilized for a maximum of 900 hours of actual work in any consecutive 12 calendar months. The employer shall review the status of the position at least every three calendar months. If at any time it is found that the position has become an appointment which is other than Extra Help, the employer shall terminate the Extra Help appointment. If an Extra Help position has accrued 900 consecutive hours, the position shall not be

reestablished until six (6) months time have elapsed from the date of the termination of the position, except that the position may be continued only upon approval of the Director. Standards that the Director shall utilize in determining a continuation shall include those listed in (1) above.

The System was asked to explain whether the Director reviews these Extra Help positions on a regular basis or whether continuation requests must be initiated by the employer, why the Director would approve continuation based upon the standards for creation of the position when 900 actual work hours is established as the maximum, and how the Director will apply these conditions to approve continuation of a position.

The System responded that any request for an exception to the 900 hour rule will be in the form of a written request to the Director from the employer with justification. The Director will review the request and may investigate the request to his/her satisfaction. He/she will then either approve or disapprove the request. Approval will not be granted unless there is a demonstration of unique circumstances and unless the request is not an attempt to circumvent the criteria and restrictions of the rules. The System provided an example: an extra help employee may reach the maximum of 900 hours before a research grant is to expire within the current payroll period. To train a new employee to perform specialized duties for less than 30 days would be gross misuse of human resources.

The System was asked to place its standards for determining that the request is a "demonstration of unique circumstances and not an attempt to circumvent the criteria and restrictions of the rules" in Section 250.70(g). Section 4.02 of the IAPA states that rules implementing discretionary powers to be exercised by an agency shall include the standards by which the agency shall exercise the power. Section 4.02 provides that such standards shall be stated as clearly and precisely as practicable, and was designed to ensure that parties affected by the rulemaking know the standards against which their compliance will be measured. Clearly, the System's Director is exercising a discretionary authority in determining whether to approve an employer's request to continue an Extra Help position based upon some showing of unique circumstances and evidence that such a request is not an attempt to circumvent the criteria and restriction of the rules. As such Section 250.70(g) must conform to the requirement of Section 4.02 of the IAPA.

JOINT COMMITTEE ON ADMINISTRATIVE RULES
ILLINOIS GENERAL ASSEMBLYSTATEMENT OF OBJECTIONSTATE UNIVERSITIES CIVIL SERVICE SYSTEM
(Continued Page 3)

Given the restraints of time, the System had no time to propose standards and seek its Board's approval prior to the Joint Committee meeting. The System indicated that it does not have the authority to revise the proposed language until the University Civil Service Merit Board has considered any suggested changes. The System requested that the Joint Committee vote the recommendation for objection to enable the System to place the objection before its Merit Board. The Merit Board could then review and approve changes in the rules which would be made in response to the Joint Committee's objection.

Therefore, the Joint Committee objects to Section 250.70(g)(6) of the proposed rulemaking of the State Universities Civil Services System entitled "State Universities Civil Service System," 80 Ill. Adm. Code 250, because contrary to the requirements of Section 4.02 of the Illinois Administrative Procedure Act, the rule fails to set forth the standards which the Director will use to approve continuation requests for extra help positions after the position has accrued 900 consecutive hours.

Objection 2

The Joint Committee objects to Section 250.70(g)(8) of the rules of the State Universities Civil Service System entitled "State Universities Civil Service System," 80 Ill. Adm. Code 250, because the rule is incomplete insofar as it fails to fully and clearly articulate System policies concerning required employer filing of quarterly reports on Extra Help positions and the System's verification of such data during annual payroll file audits.

The State Universities Civil Service System proposed this rulemaking to amend its rules concerning Section 250.70(g), Extra Help Appointments. Of specific concern is the newly proposed amendment at Section 250.70(g)(8). Section 250.70(g)(8) specifies that "[t]he employer shall periodically review its use of Extra Help appointments to ensure compliance with these rules." The System was asked to clarify what "periodically" means and whether it verifies this employer review.

In response, the System stated that the employer is required to file quarterly reports identifying all Extra Help appointments in use by the employer. The System verifies the data in the reports by reviewing the number of appointments against the reports during the annual audit from the payroll files. The Director thus approves such appointments on a post audit basis, allowing the employer to meet emergent Extra Help needs while keeping the Director in a position to exercise his authority

under the Act. The System was asked why these policies had not been included in its proposed amendments.

Although the System explained that the intent of the amendment to Section 250.70(g)(8) was to require employers to review their Extra Help appointments on a quarterly basis to determine whether the position ought to be moved to a permanent basis, whether the use of such Extra Help was appropriate, and whether the position continued to comply with the establishment criteria, these policies are not expressly articulated in the rule as currently drafted. The System indicated that it would agree to make modifications in the rule, but that it does not have the authority to revise the proposed language until the University Civil Service Merit Board has considered the proposed changes. The System requested that the Joint Committee vote the recommendation for objection to Section 250.70(b)(8) to enable the System to place the objection before its Merit Board. The Merit Board could then review and approve changes in the rules which would be made in response to the Joint Committee's objection.

Therefore, the Joint Committee objects to Section 250.70(g)(8) of the rules of the State Universities Civil Service System entitled "State Universities Civil Service System," 80 Ill. Adm. Code 250, because the rule is incomplete insofar as it fails to fully and clearly articulate System policies concerning required employer filing of quarterly reports on Extra Help positions and the System's verification of such data during annual payroll file audits.

DEPARTMENT OF NUCLEAR SAFETY

Heading of Part: Department of Nuclear Safety Science Scholarship Program

Code Citation: 32 Ill. Adm. Code 700

Date Originally Published in Illinois Register:

13 Ill. Reg. 9645

At its meeting on September 21, 1989, the Joint Committee on Administrative Rules objected to the above proposed rulemaking. Failure of the agency to respond within 90 days of receipt of the Statement of Objection shall constitute withdrawal of the proposed rulemaking in its entirety.

The specific objection is as follows:

The Joint Committee objects to Section 700.50 of the rulemaking of the Department of Nuclear Safety entitled "Department of Nuclear Safety Science Scholarship Program" (32 Ill. Adm. Code 700), because the Department has exceeded its statutory authority by requiring a scholarship recipient to repay scholarship expenses under conditions not specified in Sections 7 or 8 of the Nuclear Safety Education Assistance Act (Ill. Rev. Stat. 1988 Supp., ch. 144, par. 2507 and 2508) (i.e., if the scholar is dismissed, withdraws, fails, does not maintain a grade average of B for undergraduates or B+ for graduates).

Section 8 of the Act, Failure to fulfill obligation - Repayment, states that "[g]rant or scholarship recipients who fail to fulfill any or all of an obligation imposed pursuant to Section 7 of this Act shall pay to the Department a sum equal to the amount of the scholarship or grant awarded subject to the obligation, reduced in proportion to the amount of the obligation fulfilled by the recipient." Section 7 states that "[i]n awarding a grant or scholarship under this Act, the Department may require as a condition of such award that the recipient agree to accept an offer of employment with the Department, the operator of a regional facility for the disposal of low-level radioactive waste in Illinois, or a public utility owning or operating a nuclear power plant in Illinois, and to be so employed one year for each year that he or she is a grant or scholarship recipient."

ILLINOIS GENERAL ASSEMBLYSTATEMENT OF OBJECTION

DEPARTMENT OF NUCLEAR SAFETY

(Continued Page 2)

Section 700.50 of the rules specifies the Department's policies regarding conditions of the scholarship award. Section 700.50(b) states that "if the scholar withdraws from, is dismissed from, or fails to pursue an eligible program of study, the scholarship will be withdrawn and the scholar shall repay the State of Illinois in full for all expenses paid to that date in connection with the scholarship." Section 700.50(c) provides that a scholarship will be withdrawn and repayment will be required if the scholar does not maintain a B average as an undergraduate or a B+ average as a graduate. The Department was asked to explain the statutory authority for requiring repayment under these conditions which have not been specified in Sections 7 and 8 of the Act.

The Department responded that requiring repayment as a condition of the scholarship is not inconsistent with Section 7 or 8 of the Act. Maintenance of a B or better average encourages good performance and assures money is spent for the intended purpose. Such conditions also preclude partial completion of a degree paid with State of Illinois monies, withdrawal, and completion of the degree at an out-of-state institution to avoid the employment condition, as public employment opportunities are generally less lucrative than offers of employment in the private sector.

While the Department asserts that such repayment provisions are necessary, Sections 7 and 8 of the Act authorize repayment only when a scholar refuses an employment offer. The Department's expansion of the repayment requirement to require repayment under conditions of withdrawal, failure to continue, dismissal, or failure to maintain a B average for undergraduates and a B+ for graduates, exceeds the statutory authority of the Act. Refusal of an offer of employment represents the only grounds for repayment by statute. The additional grounds for repayment may be appropriate from a policy standpoint and may well enhance the Department's ability to operate this program. However, the Department must make this change through a amendment to the law rather than through rulemaking. If the Department wishes to require repayment for the conditions specified in Sections 700.50(b), (c), (d), it should seek legislation to so authorize repayment.

Therefore, the Joint Committee objects to Section 700.50 of the proposed rulemaking of the Department of Nuclear Safety entitled "Department of Nuclear Safety Science Scholarship Program" (32 Ill. Adm. Code 700), because the Department has exceeded its statutory authority by requiring a scholarship recipient to repay scholarship expenses under conditions not specified in Sections 7 or 8 of the Nuclear Safety Education Assistance Act (Ill. At its meeting on September 21, 1989, the Joint Committee recommended that the Department of Nuclear Safety seek legislation in regard to the above proposed rulemaking. The Department should respond within 90 days of the receipt of this Statement of Recommendation.

The specific recommendation is as follows:

The Joint Committee suggests to the Department of Nuclear Safety that if the Department believes it should be authorized to require repayment of scholarships under conditions not specified in Sections 7 or 8 of the Nuclear Safety Education Assistance Act (the Act) (Ill. Rev. Stat. 1988 Supp., ch. 144, pars. 2507 and 2508), that it seek legislation to specifically authorize such repayment.

Section 8 of the Act, Failure to fulfill obligation - Repayment, states that "[g]rant or scholarship recipients who fail to fulfill any or all of an obligation imposed pursuant to Section 7 of this Act shall pay to the Department a sum equal to the amount of the scholarship or grant awarded subject to the obligation, reduced in proportion to the amount of the obligation fulfilled by the recipient." Section 7 states that "[i]n awarding a grant or scholarship under this Act, the Department may require as a condition of such award that the recipient agree to accept an offer of employment with the Department, the operator of a regional facility for the disposal of low-level radioactive waste in Illinois, or a public utility owning or operating a nuclear power plant in Illinois, and to be so employed one year for each year that he or she is a grant or scholarship recipient."

Section 700.50 of the rules specifies the Department's policies regarding conditions of the scholarship award. Section 700.50(b) states that "if the scholar withdraws from, is dismissed from, or fails to pursue an eligible program of study, the scholarship will be withdrawn and the scholar shall repay the State of Illinois in full for all expenses paid to

that date in connection with the scholarship." Section 700.50(c) provides that a scholarship will be withdrawn and repayment will be required if the scholar does not maintain a B average as an undergraduate or a B+ average as a graduate. The Department was asked to explain the statutory authority for requiring repayment under these conditions which have not been specified in Sections 7 and 8 of the Act.

The Department responded that requiring repayment as a condition of the scholarship is not inconsistent with Section 7 or 8 of the Act. Maintenance of a B or better average encourages good performance and assures money is spent for the intended purpose. Such conditions also preclude partial completion of a degree paid with State of Illinois monies, withdrawal, and completion of the degree at an out-of-state institution to avoid the employment condition, as public employment opportunities are generally less lucrative than offers of employment in the private sector.

While the Department asserts that such repayment provisions are necessary, Sections 7 and 8 of the Act authorize repayment only when a scholar refuses an employment offer. The Department's expansion of the repayment requirement to require repayment under conditions of withdrawal, failure to continue, dismissal, or failure to maintain a B average for undergraduates and a B+ for graduates, exceeds the statutory authority of the Act. Refusal of an offer of employment represents the only grounds for repayment by statute. The additional grounds for repayment may be appropriate from a policy standpoint and may well enhance the Department's ability to operate this program. However, the Department must make this change through an amendment to the law rather than through rulemaking. If the Department wishes to require repayment for the conditions specified in Sections 700.50(b), (c), (d), it should seek legislation to so authorize repayment.

Therefore, the Joint Committee suggests to the Department of Nuclear Safety that if the Department believes it should be authorized to require repayment of scholarships under conditions not specified in Sections 7 or 8 of the Nuclear Safety Education Assistance Act (the Act) (Ill. Rev. Stat. 1988 Supp., ch. 144, pars. 2507 and 2508), that it seek legislation to specifically authorize such repayment.

At its meeting on September 21, 1989, the Joint Committee on Administrative Rules objected to the above proposed rulemaking. Failure of the agency to respond within 90 days of receipt of the Statement of Objection shall constitute withdrawal of the proposed rulemaking in its entirety.

The specific objections are as follows:

Objection 1

The Joint Committee objects to the definition of student found in Section 694.20 of the Department of Public Health's rules entitled "College Immunization Code" (77 Ill. Adm. Code 694) because, the Department lacks the statutory authority to allow persons who were born prior to January 1, 1957 to be exempt from the college immunization program.

Section 694.20 contains several definitions of terms used in this rulemaking, and defines "Student" as "any person who enrolls for the first time in an Illinois post-secondary educational institution after July 1, 1989 and who was born on or after January 1, 1957." As Section 694.100 requires students to provide proof of immunity, the effect of this definition is to exempt those persons born prior to January 1, 1957 from compliance with Public Act 85-1315 and the rules.

The Department was asked to cite its statutory authority for its rule which allows persons who were born prior to January 1, 1957, to be exempt from the college immunization program.

The Department said that the January 1, 1957, date was designated because it is consistent with the measles and mumps recommendation of the American College Health Association and the U.S. Public Health Service's Immunization Practices Advisory Committee (ACIP). The

JOINT COMMITTEE ON ADMINISTRATIVE RULES
ILLINOIS GENERAL ASSEMBLYSTATEMENT OF OBJECTIONDEPARTMENT OF PUBLIC HEALTH
(Continued Page 2)

Department explained that these two vaccine preventable diseases have been the cause of numerous outbreaks on Illinois college and university campuses in recent years. The Department explained that in practically every state in the United States with college immunization requirement laws, the January 1, 1957 date has been the standard for all vaccine preventable disease classification. The Department said that the designated January 1, 1957 date should enable the institutions to be administratively expedient in their implementation of the rule, in order to reach the majority of students at risk.

The Department offered to delete the definition of "Student". Also the Department said it would add language to the definition of "Proof of Immunity" which would require that if a person was born before January 1, 1957 he or she would be exempt from the immunization program because the age requirement would show proof of immunity. The Department noted that Section 2 of Public Act 85-1315 effective July 1, 1989 gives the Department the authority to determine what constitutes "proof of immunity". Section 2 of Public Act 85-1315 (effective July 1, 1989) provides:

No person shall attend a post-secondary educational institution without presenting proof that he or she has received such immunizations against preventable communicable diseases as the Department shall require by rules and regulations promulgated pursuant to this Act.

The Department asserted that if a person was born prior to January 1, 1957, diseases were so wide spread that persons born prior to this time would be immune from diseases, and do not need immunization.

It may well be that the Department's assertion that this additional exception is quite practical is correct. However, such an expansion of the list of exceptions should be accomplished through legislation. If the Department feels that persons born prior to January 1, 1957 should be exempt from the college immunization program, then the Department should seek legislation for this authorization.

Therefore, the Joint Committee objects to the definition of student found in Section 694.20 of the Department of Public Health's rules entitled "College Immunization Code" (77 Ill. Adm. Code 694) because, the Department lacks the statutory authority to allow persons who were born

JOINT COMMITTEE ON ADMINISTRATIVE RULES
ILLINOIS GENERAL ASSEMBLYSTATEMENT OF OBJECTIONDEPARTMENT OF PUBLIC HEALTH
(Continued Page 3)

prior to January 1, 1957 to be exempt from the college immunization program.

Objection 2

The Joint Committee objects to the Department of Public Health's rules entitled "College Immunization Code" (77 Ill. Adm. Code 694) because, by waiting to propose rules implementing Public Act 85-1315 until April 21, 1989, and not adopting regulations in a timely manner prior to the July 1, 1989 effective date of the Act, the Department has created a situation in which students, colleges and universities had no guidance as to when and how the terms of Public Act 85-1315 were to be implemented.

This rulemaking implements the provisions of Public Act 85-1315, signed by the Governor, August 31, 1988 and effective July 1, 1989 which specifies the circumstances under which proof of immunization shall be required for enrollment in a public or private college or university. Section 694.100(a), as proposed, requires that beginning with the Fall 1989 school term, students who enroll at a post-secondary educational institution shall present to the designated record keeping office proof of immunity evidencing the following immunizations: Diphtheria, Tetanus, Measles, Rubella, and Mumps. In addition, Section 694.100(e) provides "A student who enrolls at a post-secondary educational institution without providing proof of immunity shall be precluded from enrolling at that institution in a subsequent term unless the student provides proof of immunity acceptable to the designated record keeping office or is granted a medical or religious exemption by the institution." These rules also set forth the medical, religious and classification exemptions from the specific immunization requirements specified in these rules, and list the recordkeeping requirements for the colleges and universities regarding this immunization program.

As noted above, these rules were proposed on April 21, 1989 and were stated to be effective beginning with the Fall 1989 School Term. However, the Fall Term has begun and these rules are not yet adopted. The Department was asked to explain the implementation of this rulemaking for the 1989 Fall term. The Department asserted that they have not been doing anything to implement these rules prior to completion of the rulemaking process. The Department said that colleges and universities are requiring information for immunization to comply with Public Act 85-1315 effective July 1, 1989. It was explained that if Colleges and Universities call asking for information concerning this

JOINT COMMITTEE ON ADMINISTRATIVE RULES
ILLINOIS GENERAL ASSEMBLYSTATEMENT OF OBJECTIONDEPARTMENT OF PUBLIC HEALTH
(Continued Page 4)

matter, the Department stated it tells them that there are no rules or regulations in effect and none are being enforced.

The Department states that the provision of Section 694.100(a) which requires compliance with the regulations beginning with the fall term of 1989 was mistaken and offered to delete that provision from the adopted rulemaking. Unfortunately, it seems that this action occurs too late. The Fall 1989 term has begun. Schools have already required a number of incoming freshmen to comply with the immunization regulations. The Department argues that the schools should have known that administrative rules are not effective until adopted and that the schools should have known that they did not have to comply with the rules until adopted even though the rules stated they were effective with the Fall term of 1989.

Public Act 85-1315 was signed by the Governor in August, 1988 with a July 1, 1989 effective date. However, the Department waited until April 21, 1989 to propose rules to implement the law. The Department's inaction has caused confusion among those subject to the law. It seems clear that the Department had sufficient time in this instance to adopt rules prior to July 1, 1989 so that those affected could have been informed as to their duties and obligations. The Department's failure to adopt such rules in a timely manner has led to needless confusion on the part of those regulated and will no doubt lead to a situation where the law will be basically unenforceable for the Fall Term of 1989 and perhaps for the whole of the '89-'90 school year.

Therefore, the Joint Committee objects to the Department of Public Health's rules entitled "College Immunization Code" (77 Ill. Adm. Code 694) because, by waiting to propose rules implementing Public Act 85-1315 until April 21, 1989, and not adopting regulations in a timely manner prior to the July 1, 1989 effective date of the Act, the Department has created a situation in which students, colleges and universities had no guidance as to when and how the terms of Public Act 85-1315 were to be implemented.

At its meeting on September 21, 1989, the Joint Committee recommended that the Department of Public Health seek legislation in regard to the above-referenced proposed rules. The Department should respond within 90 days of the receipt of this Statement of Recommendation.

The specific recommendation is as follows:

The Joint Committee suggests to the Department that if the Department of Public Health believes that it should be authorized to exempt persons who were born prior to January 1, 1957 from the college immunization program, the Department seek legislation to obtain specific statutory authorization for this exemption.

Section 694.20 contains several definitions of terms used in this rulemaking, and defines "Student" as "any person who enrolls for the first time in an Illinois post-secondary educational institution after July 1, 1989 and who was born on or after January 1, 1957." As Section 694.100 requires students to provide proof of immunity, the effect of this definition is to exempt those persons born prior to January 1, 1957 from compliance with Public Act 85-1315 and the rules.

The Department was asked to cite its statutory authority for its rule which allows persons who were born prior to January 1, 1957, to be exempt from the college immunization program.

preventable disease classification. The Department said that the designated January 1, 1957 date should enable the institutions to be administratively expedient in their implementation of the rule, in order to reach the majority of students at risk.

The Department offered to delete the definition of "Student". Also the Department said it would add language to the definition of "Proof of Immunity" which would require that if a person was born before January 1, 1957 he or she would be exempt from the immunization program because the age requirement would show proof of immunity. The Department noted that Section 2 of Public Act 85-1315 effective July 1, 1989 gives the Department the authority to determine what constitutes "proof of immunity". Section 2 of Public Act 85-1315 (effective July 1, 1989) provides:

No person shall attend a post-secondary educational institution without presenting proof that he or she has received such immunizations against preventable communicable diseases as the Department shall require by rules and regulations promulgated pursuant to this Act.

The Department asserted that if a person was born prior to January 1, 1957, diseases were so wide spread that persons born prior to this time would be immune from diseases, and do not need immunization.

To interpret Section 2 of Public Act 85-1315 to authorize the Department of Public Health to allow a person's age to constitute "proof of immunity" is to read into the statute that which is not there. The Department's development of the regulatory concept of a presumption of immunity because of the date of one's birth cannot be reconciled with the exclusivity of the list of exemptions detailed in Section 3 of the Act. Section 3 provides exceptions for persons enrolled in a post-secondary educational institution on or before the effective date of the Act; persons enrolled in one class during a term or semester; or persons whose instruction solely involves research, field work or study outside of a classroom environment. Section 3 also has an exception if "a physician licensed to practice medicine in all of its branches certifies that any immunization required by the Department is medically contraindicated." Finally, "no proof of immunization shall be required if the person or his or her parent or guardian presents a signed statement that he or she objects to immunizations on religious grounds."

STATEMENT OF RECOMMENDATION

DEPARTMENT OF PUBLIC HEALTH
(Continued Page 3)

The list of exceptions is clear and thorough and may not be expanded by rulemaking. It may well be that the Department's assertion that this additional exception is quite practical is correct. However, such an expansion of the list of exceptions should be accomplished through legislation. The law may not be modified through rulemaking. If the Department feels that persons born prior to January 1, 1957 should be exempt from the college immunization program, then the Department should seek legislation for this authorization. In the absence of specific authorization, the Department lacks the statutory authority to allow persons born prior to January 1, 1957 to be exempt from the college immunization program.

Therefore, the Joint Committee suggests to the Department that if the Department of Public Health believes that it should be authorized to exempt persons who were born prior to January 1, 1957 from the college immunization program, the Department seek legislation to obtain specific statutory authorization for this exemption.

At its meeting on September 21, 1989, the Joint Committee on Administrative Rules objected to the above emergency rulemaking. Failure of the agency to respond within 90 days of receipt of the Statement of Objection shall constitute a refusal to amend or repeal the rule.

The specific objection is as follows:

The Joint Committee objects to the emergency rulemaking of the Department of Public Aid which amends the Department's rules governing medical assistance programs to permit spend-down of assets because, contrary to the requirements of Section 5.02 of the Illinois Administrative Procedure Act, there appears to be no emergency situation which warrants the use of emergency rulemaking in this instance.

The federal Medicare Catastrophic Coverage Act, P.L. 100-360, effective July 1, 1988, amended Section 1902 of the Social Security Act (42 U.S.C. 1902) to permit states to allow spend-down of assets. Spend-down of assets allows those with assets in excess of the allowable maximums to spend those assets in payment for allowable expenses and then to become eligible for medical assistance once these assets have been expended. This emergency rulemaking amends the Department of Public Aid rules to permit spend-down of assets. The rulemaking provides that for applications filed on or after June 1, 1989, non-exempt assets in excess of the appropriate asset disregard, in addition to non-exempt income, must be considered when determining eligibility for medical assistance.

The Department was asked to explain the threat to the public interest, safety or welfare that required the use of emergency rulemaking in this instance. The Department explained that the rulemaking is designed to

(Continued Page 2)

correct the inequity of denying an application for medical assistance because of any surplus of assets while permitting a large spend-down of income. With the change in federal law, this situation could and was occurring and could be remedied by rulemaking. The Department explained that it made the decision to implement this provision of federal law as soon as possible and therefore used emergency rulemaking. It was explained that it was felt that it would be inequitable to wait to implement this program until permanent rules could be adopted.

Section 5.02 of the Illinois Administrative Procedure Act (IAPA) defines "emergency" as "the existence of any situation which an agency finds reasonably constitutes a threat to the public interest, safety or welfare." It does not appear that in this instance a situation exists which constitutes an emergency.

The change in federal law which allowed this rulemaking is a 1988 enactment. The Department has not explained why it was constrained from developing rulemaking on this subject prior to June 27, 1989, when P.L. 100-360, the federal enactment upon which the rulemaking was based, was effective July 1, 1988. While the policy behind the rule and the benefits provided by the rulemaking are unquestioned, it unfortunately does not appear that adopting this rulemaking at this time is a proper use of the emergency rulemaking procedures of Section 5.02 of the IAPA.

Therefore, the Joint Committee objects to the emergency rulemaking of the Department of Public Aid which amends the Department's rules governing medical assistance programs to permit spend-down of assets because, contrary to the requirements of Section 5.02 of the Illinois Administrative Procedure Act, there appears to be no emergency situation which warrants the use of emergency rulemaking in this instance.

At its meeting on September 21, 1989, the Joint Committee on Administrative Rules objected to the above emergency rulemaking. Failure of the agency to respond within 90 days of receipt of the Statement of Objection shall constitute a refusal to amend or repeal the rule.

The specific objection is as follows:

The Joint Committee objects to the emergency rulemaking of the Department of Public Aid which added Section 120.393 to the Medical Assistance Programs rules of the Department because, contrary to the requirements of Section 5.02 of the Illinois Administrative Procedure Act, any emergency situation which may exist has been created by the failure of the Department to pursue normal rulemaking through the procedures of Section 5.01 of the IAPA in a timely manner.

This rulemaking adds Section 120.393 which is designed to implement a demonstration project in Macon County and the Garfield and Western offices in Cook County. The project expands the provision of medical assistance to pregnant women and children under the age of eight years who do not qualify as mandatory categorically needy and whose incomes are no more than 185% of the federal Poverty Income Guidelines. The Department is authorized to operate demonstration programs pursuant to Section 12-4.30 of the Public Aid Code. (Ill. Rev. Stat. 1987, ch. 23, par. 12-4.30) Federal Law authorizes the provision of such coverage at Section 1902(1) of the Social Security Act (42 U.S.C. 1396a(1)).

The Department was asked to explain the threat to the public interest, safety, or welfare that required the use of emergency rulemaking in this instance. The Department explained that it had made a commitment to establish such a demonstration program effective July 1, 1989. It was explained that there was much discussion about the nature of the program and that by the time the program was finalized there was not

JOINT COMMITTEE ON ADMINISTRATIVE RULES

(Continued Page 2)

sufficient time to implement the program by July 1, 1989 without the use of emergency rulemaking.

Section 5.02 of the Illinois Administrative Procedure Act defines "emergency" as "the existence of any situation which an agency finds reasonably constitutes a threat to the public interest, safety or welfare." The Department's explanation that the rulemaking needed to be in place by July 1, does not appear to constitute a threat to the public interest, safety or welfare which justifies the use of emergency rulemaking.

The Department advised that the primary goal of the demonstration project is to determine whether expanded Medicaid coverage will help reduce infant mortality. However, it appears that this goal could have been served by adopting permanent rules in a more timely manner so as to have the demonstration program in place by July 1, 1989 without resorting to emergency rulemaking. While the goals of the demonstration appear laudable and no doubt the program should be implemented as quickly as possible, it is nonetheless unfortunately true that the use of emergency rulemaking seems in this instance to have been improper.

Therefore, the Joint Committee objects to the emergency rulemaking of the Department of Public Aid which added Section 120.393 to the Medical Assistance Programs rules of the Department because, contrary to the requirements of Section 5.02 of the Illinois Administrative Procedure Act, any emergency situation which may exist has been created by the failure of the Department to pursue normal rulemaking through the procedures of Section 5.01 of the IAPA in a timely manner.

Heading of Part: Reimbursement for Nursing Costs for Geriatric Facilities

At its meeting on September 21, 1989, the Joint Committee on Administrative Rules objected to the above emergency rulemaking. Failure of the agency to respond within 90 days of receipt of the Statement of Objection shall constitute a refusal to amend or repeal the rule.

The specific objection is as follows:

The Joint Committee objects to the emergency amendments to 147. Table A and 147. Table B of the rules of the Department of Public Aid entitled "Reimbursement for Nursing Costs for Geriatric Facilities" because, contrary to the requirements of Section 5.02 of the Illinois Administrative Procedure Act, any emergency situation which may exist has been created by the failure of the Department to pursue normal rulemaking through the procedures of Section 5.01 of the IAPA in a timely manner.

The rules of the Department of Public Aid governing reimbursement for nursing costs for geriatric facilities are found at 89 Ill. Adm. Code 147. The rules establish the framework within which such reimbursement will be made. Sections 147. Table A and 147. Table B detail the amount of staff time and the particular staff members who will be reimbursed for the provision of the various services provided to residents of nursing facilities. This particular emergency rulemaking modifies Tables A and B to reflect, in the words of the Department, "a greater emphasis on the level of care provided nursing facility residents."

The Department was asked to explain the threat to the public interest, safety or welfare that required the use of emergency rules in this instance. The Department explained that this was a policy decision on the part of the Department. It was indicated that there was no change

(Continued Page 2)

in federal law or rules, nor any change in state law that required this change in the Department's regulations.

The Department advised that it was necessary to have these changes in place on July 1, the beginning of the state fiscal year. It was explained that from a practical standpoint it would have been extremely difficult to implement these changes in the middle of the fiscal year.

Section 5.02 of the Illinois Administrative Procedure Act defines "emergency" as "the existence of any situation which an agency finds reasonably constitutes a threat to the public interest, safety or welfare." The Department's explanation that the rulemaking needed to be in place by the beginning of the fiscal year does not appear to constitute a threat to the public interest and welfare which justifies the use of emergency rulemaking.

The Department admitted that these emergency amendments resulted from a policy decision by the Department. If the Department had made this policy decision sooner, it could have utilized the normal rulemaking procedures of Section 5.01 of the IAPA to adopt this rulemaking, rather than having to resort to the use of emergency rulemaking. It appears that in this instance, any emergency situation which may exist has been agency created.

Therefore, the Joint Committee objects to the emergency amendments to 147. Table A and 147. Table B of the rules of the Department of Public Aid entitled "Reimbursement for Nursing Costs for Geriatric Facilities" because, contrary to the requirements of Section 5.02 of the Illinois Administrative Procedure Act, any emergency situation which may exist has been created by the failure of the Department to pursue normal rulemaking through the procedures of Section 5.01 of the IAPA in a timely manner.

PROCLAMATION

89-427

AMERICAN INDIAN HISTORY MONTH

Whereas, American Indians are considered to be the original native peoples of North America, and their culture has nearly vanished in the wake of civilization; and

Whereas, there is a large American Indian population in Illinois, particularly in Chicago, and public recognition of these people can help them to secure a niche in society; and

Whereas, although Indian Day was established in Illinois in 1919 for the 25th of September, it is rarely recognized, and American Indians continue to be regarded as people of the past rather than of the future;

Therefore, I, James R. Thompson, Governor of the State of Illinois, proclaim September 22 - October 23, 1989, as AMERICAN INDIAN HISTORY MONTH in Illinois, urging all citizens to remember the plight of these people and support this significant tribute. Issued by the Governor September 18, 1989.

Filed with the Secretary of State September 25, 1989.

FAMILY WEEK

"There's no vocabulary for love within a family, love that's lived in but not looked at, love within the light of which all else is seen, the love within which all other love finds speech. This love is silent" T.S. Eliot, The Elder Statesman, 1958

Whereas, the family is the entity that nurtures the values which have made America great. The bonds of familial love are the foundation of our nation's strength; and

Whereas, the trust, duty, respect and cooperation that are a way of life for family members are traits that reinforce the fabric and function of all societal units from the neighborhood to the nation. The acceptance of each individual family member's uniqueness, teamed with simultaneous, unified striving to improve gives momentum to our progress as a nation; and

Whereas, appropriately placed with the traditional week of Thanksgiving, National Family Week is a period of thanks for all the contributions the family has made to our country;

Therefore, I, James R. Thompson, Governor of the State of Illinois, proclaim November 19-25, 1989, as FAMILY WEEK in Illinois, in conjunction with the national observance.

Issued by the Governor September 18, 1989.

Filed with the Secretary of State September 25, 1989.

Whereas, material managers across the country will celebrate the fourth annual National Health Care Materials Management Week, October 1-7, 1989, with the theme "New Ideas for Changing Times";

Therefore, I, James R. Thompson, Governor of the State of Illinois, proclaim October 1-7, 1989, as HEALTH CARE MATERIALS MANAGEMENT WEEK and urge all citizens to be cognizant of the contributions of health care material managers.

Whereas, the International Bible Reading Association is trying to establish widespread individual and group participation in the International Year of Bible Reading in hopes of worldwide improvement in the actions and attitudes of millions of people;

Therefore, I, James R. Thompson, Governor of the State of Illinois, proclaim 1990 as the INTERNATIONAL YEAR OF BIBLE READING in Illinois, and urge all citizens of Illinois to participate in this worthy effort.

The Sections Affected Index lists, by Title, each Section of a codified Part on which rulemaking activity has occurred in this volume of the Register and is divided into two parts: the first lists the Sections on which rulemaking activity occurred in the previous issues of this volume year; the second lists the Sections on which rulemaking activity occurred in this issue of the Register. (The headings at the top of each page indicate the two parts: the first part shows the previous issue numbers inclusively and the date of the last published issue; the second lists the current issue number and date.) The columns in both parts indicate the type of rulemaking activity and the action taken along with the page number on which the first page of the notice of rulemaking activity appeared. If a Section on which action is being taken in the current volume (calendar year) of the Register was proposed in a previous volume, the last two digits of the previous volume's year appear immediately after the page number separated by a slash. (e.g. 1 Ill. Adm. Code 100.280 was proposed last year and adopted this year. The action entry reads: (P-8577/86; A-724f)) The codes for both columns are listed below. For a complete listing of the Titles of the *Illinois Administrative Code*, please refer to 1 Ill. Adm. Code 100.140 or contact the Administrative Code Division.
